

WAYNE COUNTY SWCD FALL 2022 FUNDRAISER

The Wayne County Soil & Water Conservation District is excited about this Fall Fundraiser to help fund educational programs, provide excellent service to the community, and improve the quality of our environment. This year the SWCD is offering a variety of container grown native or not invasive trees and shrubs, kiln dried cedar bird/animal nest boxes & feeders, and 30 gallon rain barrels while supplies last.

Please check out the information on each species inside this flyer as well as the expected size of the delivered plant on the order form. Some species information has been updated with data from the nursery. If you are interested in a special item please contact us to check on availability and cost. The nursery has a variety of trees and shrubs in smaller and larger container sizes in limited quantities. The SWCD is also continuing to offer kiln-dried cedar feeders and nestboxes for a variety of wildlife species. These quality items are made by an Ohio business.

**Mail your order as soon as possible as quantities from our supplier is limited. Any questions or special requests, call the Wayne County SWCD office at:

(765) 966-0191 Ext. 3 from 8:00am—4:30pm Monday through Friday.

You may also leave a message at one of the following e-mails:

raeann.kennedy@in.nacdnet.net or luanne.holeva@in.nacdnet.net

ORDER DEADLINE: MONDAY, SEPT 19 @ NOON

Due to this being a Fundraiser we are unable to offer refunds or replacements.

Items not picked up will be donated to a local community project

823 South Round Barn Road; Richmond, Indiana**

THURSDAY, SEPT 22

8:30 AM—4:00 PM

FRIDAY, SEPT 23

8:30 AM—4:00 PM

Please contact us if you need to make other arrangements for pick up of your items.

Trees	Height	Crown Width	Growth	Fall color	Site	Other information
Allegheny Serviceberry <i>Amelanchier laevis</i>	15-35 feet	15-25 feet	Medium	Yellow to orange to red	Variety of sites Shade tolerant	Small white flowers in spring, sweet berries turn magenta to purple, attracts birds, wildlife value high
American Basswood <i>Tilia americana</i>	50-90 feet	30-50 feet	Medium-fast	Yellow to brown	Moist, deep, loamy soils. Shade tolerant	Bees are drawn to flowers for honey. Can be a stump sprouter
American Elm <i>Ulmus americana</i>	100-120 feet	30-70 feet	Fast	Yellow	Moist soils	Graceful and vase-like form. Susceptible to Dutch Elm disease from 1930's
American Hornbeam <i>Carpinus caroliniana</i>	20-30 feet	20-30 feet	Slow-medium	Yellow, orange, scarlet	Moist soils below canopy	Smooth bark—has a “muscle” appearance, very hard wood. Shade tolerant
Bald Cypress <i>Taxodium distichum</i>	55-130 feet	25-35 feet	Fast	Cinnamon	Very wet to drier soils	Loses its needles in the fall, resists decay, wind firm, survives to -30F
Bitternut Hickory <i>Carya Cordiformis</i>	50-80 feet	Up to 50 feet	Slow-medium	Yellow to brown	Variety of sites	Thin husk, thin shelled nut with bitter seeds, unpalatable to most wildlife. Drought tolerant
Black Cherry <i>Prunus serotina</i>	40-80 feet	20-50 feet	Medium to Fast	Green, yellow, red-orange	Moist, well drained soil	White flowers, small clustered red to purple berries, wildlife eat fruit, wildlife value very high
Black Gum (Black Tupelo) <i>Nyssa sylvatica</i>	35-95 feet	20-30 feet	Slow-medium	Yellow to orange to red/purple	Variety of sites	Wood strong & tough. Fruits on female trees ripen in fall & eaten by birds
Black Oak <i>Quercus velutina</i>	50-100 feet	45-75 feet	Medium	Rusty red to brown	Dry to well drained	Small acorns carried & eaten by birds. Wildlife value very high
Black Willow <i>Salix nigra</i>	20-80 feet	15-25 feet	Fast	Yellow	Moist soil, stream banks	Good for stream bank stabilization. Wildlife value high
Bur Oak <i>Quercus macrocarpa</i>	55-100 feet	45-80 feet	Medium	Red, to yellow to brown	Tolerant of many soils	Resistant to drought. Planted as shade and ornamental tree. Wildlife value very high
Cherrybark Oak <i>Quercus pagoda</i>	60-120 feet	30-70 feet	Medium	Yellow to copper to brown	Moist, well drained bottomland	The small acorns are an important food source for birds and mammals. Wildlife value very high
Chokecherry <i>Prunus virginiana</i>	20-50 feet	10-35 feet	Fast	Yellow to reddish-purple	Variety of well drained soils	Wildlife eats berries, poisonous to humans unless processed. This tree may sucker
Common Ninebark <i>Physocarpus opulifolius</i>	4-10 feet	6-10 feet single to many	Fast	Yellow to maroon-purple	Variety, prefers moist	May-June cluster of white flowers & red anthers, old bark exfoliates in long, thin strips,
Flowering Dogwood <i>Conus florida</i>	20-30 feet	20-30 feet	Slow-medium	Red	Moist, well drained soil	White, showy petals in spring, red fruit in fall attracts birds. Wildlife value very high
Hackberry <i>Celtis occidentalis</i>	30-90 feet	40-80 feet	Medium to fast	Yellow	Variety of sites. Shade tolerant.	Crown may develop “witches brooms” which is characteristic. Small berries eaten by wildlife. Wildlife value very high. Drought tolerant

Trees	Height	Crown Width	Growth	Fall color	Site	Other information
Hoptree (Water Ash) <i>Ptelea trifoliata</i>	15-35 feet	15-20 feet	Slow-medium	Greenish-yellow to orange-red	Sun-shade, dry to moist soils	Dark green shiny leaves eaten by caterpillars of Giant & Eastern Tiger Swallowtails. Drought tolerant
Hybrid Chestnut <i>Castanea dentate x mollissima</i>	40-60 feet	40-60 feet	Medium-fast	Yellow-brown	Moist, upland soil	Cross between an American and Chinese chestnuts, blight resistant and large, sweet nuts
Kentucky Coffeetree <i>Gymnocladus dioicus</i>	50-100 feet	35-50 feet	Slow-medium	Yellow	Moist soil valley areas	Leaves are twice compound, fruit is short, thick, hard pod
Northern Pecan <i>Carya illinoensis</i>	75-115 feet	40-70 feet	Slow to medium	Yellow to brown	Moist well drained soils	Edible nuts, also known as Sweet Pecan
Norway Spruce <i>Picea abies</i>	40-150 feet	20-40 feet	Medium	Evergreen	Variety of sites	Characteristic drooping, upturned branches, resilient species.
Overcup Oak <i>Quercus lyrata</i>	40-75 feet	35-60 feet	Medium	Yellow-brown	Full sun Moist soils	Named due to acorn cap covering 2/3 of the nut. Enjoyed by squirrels, turkeys, & deer. Wildlife value very high
Paw Paw <i>Asimina triloba</i>	15-25 feet	15-20 feet	Medium-slow	Yellow to light green	Moist soils/ understory Shade tolerant	Small tree or shrub, known as the Indiana banana.
Pin Oak <i>Quercus palustris</i>	55-100 feet	40-50 feet	Fast-medium	Red to rusty orange	Wet - better drained soils, needs acidic soils	Upward top branches, middle horizontal branches, downward lower branches. Wildlife value very high
Quaking Aspen <i>Populus tremuloides</i>	20-50 feet	10-30 feet	Fast	Stunning Yellow	Moist, well drained soils	Slightest breeze cause leaves to tremble/quake. Root sprouts create cluster of trees
Redbud <i>Cercis canadensis</i>	15-30 feet	25-35 feet	Medium-slow	Yellow	Moist soil. Shade tolerant	Pink/red flowers in spring Drought tolerant. Available as single stem or multi-stem. Drought tolerant
Red Maple <i>Acer rubrum</i>	40-75 feet	40 feet	Fast	Yellow-orange to bright red	Wet or dry soils	Wildlife value very high. Not the King Crimson Maple (which is an invasive tree!)
Red Oak <i>Quercus rubra</i>	50-85 feet	45-75 feet	Fast-medium	Red to maroon-purple	Varied/well drained soil	Popular shade and street tree. Hardy in city conditions. Wildlife value very high
River Birch - single stem <i>Betula nigra</i>	40-80 feet	35-60 feet	Fast	Yellow	Moist soil/ stream banks	Salmon pink papery bark. Available as single stem or multi-stem (clumped). Wildlife value very high
Shagbark Hickory <i>Carya ovata</i>	70-80 feet	30-40 feet	Slow (fastest hickory)	Yellow to brown	Variety of sites	Plates of bark give it shaggy appearance. Large, woody husked nuts are edible (sweet)

Trees	Height	Crown Width	Growth	Fall color	Site	Other information
Shellbark Hickory <i>Carya laciniosa</i>	60-100 feet	30-40 feet	Slow	Yellow to brown	Wet soil and river banks	Shaggy bark/similar to shag-bark hickory. Has the largest hickory nuts
Shingle Oak <i>Quercus imbricaria</i>	30-60 feet	40-60 feet	Medium	Dark green to yellow-brown	Well drained loam to clay	Oblong shaped leaf, used to make shingles by pioneers. Wildlife value very high
Shumard Oak <i>Quercus shumardii</i>	50-100 feet	40-60 feet	Medium-Fast	Red to maroon-purple	Moist to dry soils	Similar to Red Oak, handsome shade tree. Drought tolerant. Wildlife value very high
Silver Maple <i>Acer saccharinum</i>	50-90 feet	30-50 feet	Fast	Yellow-brown	Variety of sites	Susceptible to wind damage, avoid septic/sewer/water lines Wildlife value high
Speckled Alder <i>Alnus rugosa</i>	15-30 feet	25-35 feet forms thicket	Fast	Dark green to yellow/brown	Wet to a variety	Root nodules support nitrogen-fixing bacteria, wildlife value very high
Swamp Chestnut Oak <i>Quercus michauxii</i>	60-100 feet	40-70 feet	Medium	Red to maroon-purple	Moist, well drained soils	Does not like wet areas, makes nice shade tree. Wildlife value very high
Swamp White Oak <i>Quercus bicolor</i>	45-100 feet	45-60 feet	Medium-Fast	Orange-red to tan-brown	Wet to drier soils	Leaf top dark green/underneath more white. Wildlife value very high
Sycamore <i>Platanus occidentalis</i>	70-100 feet	60-80 feet	Fast	Yellow - brown	Wet soil, river banks	Brown and white mottled bark, can get anthracnose
Tulip Poplar—State Tree <i>Liriodendron tulipifera</i>	70-120 feet	20-50 feet	Fast	Yellow	Well drained soils	Indiana state tree, tends to grow a straight trunk
White Oak <i>Quercus alba</i>	45-100 feet	45-80 feet	Slow-medium	Red to maroon-purple	Moist, well-drained soils	May retain leaves through winter, Wildlife eat acorns. Wildlife value very high
White Pine <i>Pinus strobus</i>	50-100 feet	20-75 feet	Medium	Evergreen	Variety	“Soft-needle pine” with 5 needles per bundle. Wildlife value very high

Shrubs	Height	Spread	Growth	Fall color	Site	Other information
American Black Currant <i>Ribes americanum</i>	3-6 feet	3-5 feet root sprout	Fast	Orange to red	Moist to well drained. Full sun– partial shade	Yellow flowers mid-late spring. Mature berries are black. Utilized by bees, butterflies, birds, mammals
American Bladdernut <i>Staphylea trifolia</i>	6-15 feet	6-20 feet	Medium-fast	Yellow-green	Moist, well drained soils. Shade tolerant	Beautiful clusters of drooping tubular white flowers in spring to bladder-like seed pods lasting into winter
Arrowwood Viburnum <i>Viburnum dentatum</i>	5-15 feet	6-15 feet	Fast to medium	Yellow to red	Wet or dry soils	Tiny spring flowers, bushy look, blue-purple fruits in summer. Wildlife value high
Black Chokeberry <i>Aronia melanocarpa</i>	3-6 feet	3-6 feet single to many stems	Slow-medium	Yellow to orange to red	Variety Shad tolerant	Clusters of white flowers March to July, bluish-black berries in clusters up to 10, Aug to Nov
Buttonbush <i>Cephalanthus occidentalis</i>	3-15 feet	4-8 feet	Medium	Red, yellow green to yellow	Wet soils	Balls of white flowers, bushy in appearance
Coralberry <i>Symphoricarpos orbiculatus</i>	2-5 feet	4-8 feet	Fast	Blue-green to Yellow-green	Variety of soils	Greenish-yellow blooms in spring, purplish-red berries persist in fall for birds. Wildlife value high
Elderberry <i>Sambucus canadensis</i>	5-13 feet	6-15 feet	Fast	Yellow-green not showy	Wet soils	Flat topped clusters of white flowers. Sweet, edible purplish-black berry. Wildlife value very high
Grey Dogwood <i>Cornus racemose</i>	6-15 feet	10-15 feet forms thicket	Medium	Purplish-red	Wet or dry soils	Greenish white flower clusters, white fruit on red stems. Wildlife value very high
Hazelnut <i>Corylus americana</i>	6-15 feet	8-13 feet forms thicket	Medium	Dull yellow/orange/red-brown	Variety of soils	Nut also known as a filbert, eaten by humans and wildlife. Male/female plants
Inkberry Holly “Strongbox” <i>Ilex glabra</i>	5-12 feet	5-8 feet	Slow	Evergreen glossy leaf	Moist soils with good drainage	Separate male & female plants. Black berry eaten by birds & mammals. Wildlife value high
Meadowsweet <i>Spiraea alba</i>	2-6 feet	3-6 feet	Fast to medium	Yellow	Full sun, wet to moist site	White flowers mid-late summer. Attracts bees, butterflies & moths. Drought tolerant
Nannyberry <i>Viburnum lentago</i>	12-28 feet	8-10 feet single to multi-stem	Medium-fast	Yellow to red to purple	Variety of sites and soils. Shade tolerant	Small white flowers in clusters in late May, fruits attract birds and wildlife. Wildlife value high.
New Jersey Tea <i>Ceanothus americanus</i>	3-4 feet	3 to 6 feet	Slow to Medium	Yellow-tan	Variety of soils	White flowers attracts butterflies and hummingbirds, high drought tolerance
Pasture Rose <i>Rosa carolina</i>	3-6 feet	5-8 feet	Medium, short-lived	Dull red to yellow, red hips in fall	Medium-wet well drained soils	2 inch single rose pink flower, has thorns, often spreads by suckers, pollinator plant, drought tolerant

Shrubs	Height	Spread	Growth	Fall color	Site	Other information
Red Chokeberry <i>Aronia arbutifolia</i>	6-12 feet	3-5 feet	Slow-medium	Red	Wet or dry soils	White flowers in spring, red berries into winter
Red Elderberry <i>Sambucus racemosa</i>	4-25 feet	3-25 feet Suckers	Rapid	Yellow-green not showy	Variety of soils	Tiny white fragrant blooms May-June draw pollinators. Dark red fruit summer to fall fed on by wildlife. Drought tolerant
Red Osier Dogwood <i>Cornus sericea</i>	6-10 feet	5-10 feet multi stems	Medium	Purplish-red	Moist soil, riparian	Flowers small white clusters, fall white fruits, twigs bright red. Wildlife value very high
Roughleaf Dogwood <i>Cornus drummondii</i>	15-25 feet	10-15 feet forms thicket	Fast	Red to purplish-red	Variety of sites and soils	Flatt-topped clusters of whitish flowers April-June for butterflies. Birds feed on white fruit in fall.
Silky Dogwood <i>Cornus amomum</i>	6-10 feet	6-12 feet forms thickets	Medium	Red to maroon purple	Wet or dry soils	Clusters of delicate white flowers, dark berries, red twigs, spreading. Wildlife value very high
Smooth Hydrangea <i>Hydrangea arborescens</i>	3-6 feet	3 to 9 feet	Fast	Yellow to tan/brown	Moist, well drained	White blooms June to September. Shade tolerant
Smooth Sumac <i>Rhus glabra</i>	10-15 feet	10-15 feet	Fast	Yellow, orange-red-purple	Moist	Red drupes on terminal panicles in winter. Spreads by suckering. Wildlife value high
Spicebush <i>Lindera benzoin</i>	9-10 feet	Multi-stemmed shrub	Slow	Golden-yellow	Moist soils and along streams	Crushed leaves smell of lemon Separate male & female plants Both needed to produce fruit. Wildlife value very high
Swamp Rose <i>Rosa palustris</i>	3-8 feet	3-7 feet	Fast to medium	Yellow-orange-red, red hips in fall	Wet to Moist soils	Pale pink flowers, sweet fragrance. Attracts pollinators, birds eat rose hips in fall Drought tolerant
Winterberry <i>Ilex verticillata</i> (male/female not marked)	3-12 feet	3-12 feet	Medium	Golden yellow	Wet or dry soils	Small white flowers, red berries on female bush. Wildlife value high

Please bring back the tree and shrub pots for reuse at the Nursery. We will collect and return them next year!

If your tree and shrubs came in a knit bag, please carefully separate it at the seam and then bring back to use. We will return it to the nursery to reuse.

They can sew it back up that seam and reuse it!

Bird/Animal Boxes	Site	Opening	Size in inches W x D x H	Other information
Standard Eastern Bluebird Nestbox/ Roost Box	Open areas with scattered trees	1.5 inch	7 x 10 x 12 inside 5 x 4.5 x 10	Predator guard, ventilation & drainage, easy open front to clean
Classic Eastern Bluebird Nestbox	Open areas with scattered trees	1.5 inch	7 x 10 x 12 inside 5 x 4.5 x 10	Routed edges, door opens down, ventilation & drainage, predator guard
Classic Eastern Bluebird Nestbox with vents	Open areas with scattered trees	1.5 inch	7 x 10 x 12 inside 5 x 4.5 x 10	Routed edges, door opens down, ventilation & drainage, predator guard
Slanted Bluebird Nestbox	Open areas with scattered trees	1.5 inch	7 x 13 x 20	Routed edges, door opens down, ventilation & drainage
Viewing Eastern Bluebird Nestbox	Open areas with scattered trees	1.5 inch	12 x 9 x 13.5	Routed edges, side door opens down, polycarbonate viewing window
Robin/Phoebe Nestbox	Backyards, gardens, woodlands	8 x 5 inch front 3.5 inch side	12 x 9 x 8.75 inside 8 x 6 x 7	Covered open shelf appearance with side openings as well.
Wren/Chickadee Nestbox (Mounting)	Backyards, brushy fields, edges	1.125 inch	5.5 x 7 x 11 inside 3.5 x 3.5 x 8.5	Door opens up for easy cleaning, ventilation and drainage
Hanging Wren Nestbox	Backyards, brushy fields, edges	1.125 inch	5.5 x 7 x 7.75 inside 3.5 x 3.5 x 5.75	Metal chain and "S" hook included, front opens up for cleaning, ventilation & drainage
Hanging Chickadee / Wren Nestbox Beveled Roof Style	Backyards, brushy fields, edges	1.25 inch	9 x 7.5 x 10	Routed edges, side door opens for easy cleaning, ventilation and drainage.
Hanging Wren V Nestbox	Backyards, brushy fields, edges	1.125 inch	8.5 x 8 x 7	Routed edges, sides open for easy cleaning, ventilation and drainage.
Downy Woodpecker Nestbox	Wooded area	1.5 inch	7 x 10.25 x 13.75 inside 5 x 4.5 x 12	Door opens down, predator guard, ventilation & drainage.
Woodpecker Nestbox	Wooded areas, 8 to 20 feet high	2 inch	8.25 x 10.5 x 16 inside 6 x 5.5 x 14	Door opens down for cleaning. Used by hairy, red headed, red bellied, & great crested flycatcher .Predator guard, ventilation, drainage
Northern Flicker Nestbox	Farmland or open country	2.5 inch	10 x 13 x 21 inside 7 x 7.5 x 18	Door opens up for cleaning, predator guard, ventilation & drainage
Screech Owl/ Kestrel Nestbox	Farmland, orchards, woods	3 inch	10.5 x 12.5 x 20.5 inside 8 x 8.25 x 18	Door opens up for cleaning, predator guard, ventilation & drainage
Wood Duck Nestbox	Wood swamps or bottom lands, above/near water	4 x 3 inch oval	11 x 14 x 29 inside 9 x 9.25 x 22.5	Side door opens up for cleaning, bottom ventilation and drainage
Barn Owl Nestbox	Near open fields or meadows	6 inch	13.5 x 22 x 20 inside 9.5 x 18 x 18	Sides open for easy clean out
1-Chamber Bat House	Eave of barn or 15 ft high, in sun	.75 inch	10 x 4 x 16	Grooved landing pad for easy landing & grooved inside chamber walls.
2-Chamber Bat House	Eave of barn or 15 ft high, in sun	.75 inch	9.25 x 4.25 x 18	Grooved landing pad for easy landing & grooved inside chamber walls.
3-Chamber Bat House	Eave of barn or 15 ft high, in sun	.75 inch	12 x 5.5 x 28	Grooved landing pad for easy landing, air vents, top joints sealed for warmth, & grooved inside chamber walls.
Butterfly House	Sunny butterfly flower gardens	.5 inch x 4 inch	9 x 9 x 22.75	Removable top for cleaning and monitoring, and drainage
Squirrel House	Variety of sites	3 inch	9.5 x 11 x 21.5	Door opens up for cleaning, inside lounging shelf, 2 entrance/exit holes, & drainage
Wren Nestbox Kit	Backyards, brushy fields, edges	1.125 inch	5.5 x 7 x 7.75 assembled	Comes unassembled, stainless steel screws included. Routed edges, door opens down

Feeders	Size in inches	Seed capacity	Additional information
#3 Hanging Corner Feeder	9 x 9.25 x 9.5	Holds 3 pounds of seed	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#6 Double Corner Feeder Hanging or Post Mount— redesigned	15 x 9.5 x 9.5	2 hoppers hold 3 pounds of seed in each	Has 6 feeding stations. Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#7 Hanging or Post Mount Corner Feeder	12 x 12 x 12	Holds 7 pounds of seed	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#11 Post Mount Corner Feeder	13 x 13 x 14.25	Holds 11 pounds of seed	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#5 Tall Hanging Corner Feeder	9 x 9 x 15.5	Holds 5 pounds or 4 quarts mixed seed	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#4 Tall Hanging Corner Sunflower/Peanut Pieces	9 x 9 x 15.5	Holds 3.5 pounds or 4 quarts sunflower seeds	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#10 Tall Post Mount Corner Feeder	12 x 12 x 19.5	Holds 10 pounds or 9 quarts mixed seed	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#3 Hanging Bird Feeder	9 x 9.25 x 9.5	Holds 3 pounds of seed	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#5 Hanging Bird Feeder	12 x 9 x 11.5	Holds 5 pounds of seed	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#5 Hanging Bird Feeder with Stainless Suet Holders	12 x 9 x 11.5	Holds 5 pounds of seed & 2 suet cakes	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#8 Hanging Bird Feeder	15 x 11.5 x 13.5	Holds 8 pounds of seed	Can be hung or post mounted. Has slide out removable aluminum screen bottom for easy cleaning and drainage.
#8 Hanging Feeder with Stain- less Suet Holders	15 x 11.5 x 13.5	Holds 8 pounds of seed & 2 suet cakes	Can be hung or post mounted. Has slide out removable aluminum screen bottom for easy cleaning and drainage.
Fly-In Feeder	15 x 12 x 13.25	Varies with seed type	Can be hung or post mounted. Has slide out removable aluminum screen bottom for easy cleaning and drainage.
Fly-In V Feeder with Hoppers	15 x 12 x 13	Holds 2 pounds of seed	V feeders have removable clear plastic seed holders. Seed holders pull out to clean and slide up and down to adjust seed flow.
Bluebird Feeder	14 x 9.5 x 9.5	Plastic guard prevents meal worm escape	Has clear acrylic sides for easy viewing. Inside perches, can be hanging or post mounted. Wood bottom does not open.
Ground Platform Feeder	14.5 x 11.75 x 7.25 with legs	Varies with seed type	Has removable aluminum screen bottom for easy cleaning and drainage.
Hexagon Ground Feeder	14 x 16 x 7 with legs	Varies with seed type	Has removable aluminum screen bottom for easy cleaning and drainage.
Hanging Platform Feeder	14.5 x 12 x 2.25	Varies with seed type	Has removable aluminum screen bottom for easy cleaning and drainage.
Hanging Hexagon Feeder	14 x 16 x 3	Varies with seed type	Has removable aluminum screen bottom for easy cleaning and drainage.
Mounting Platform Feeder	14.5 x 12.75 x 2.25	Varies with seed type	Has removable aluminum screen bottom for easy cleaning and drainage.
Small Sunflower Feeder	6 x 6 x 16.75	Holds 1.25 pounds of sunflower seeds	Wood bottom does not open.

Feeders	Size in inches	Seed capacity	Additional information
Large Sunflower/Peanut Pieces Feeder	8 x 7.75 x 19	Holds 3 pounds of seed	Wood bottom does not open.
Double Sunflower/Peanut Pieces Feeder	12 x 7.25 x 19	Black oil sunflower seed & peanut pieces Holds 6 pounds of seed	Two feeders allows for sunflower & peanut pieces to be separate. Wood bottom does not open.
Thistle Bird Feeder	7 x 9 x 17.75	Holds 2 pounds of seed	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
Double Dine & Drink Feeder	24 x 11.75 x 13.5	2 seed hoppers hold 8 pounds of seed each	Has removable stainless steel dish for water or treats. Has slide out removable aluminum screen bottom for easy cleaning & drainage.
Oriole Feeder	14 x 8.75 x 9.75	2 orange slices and 6 ounces of jelly	Plastic pegs (2) for orange slices. Removable 6 oz dish for jelly. Orange Trap-It Ant Trap.
Multi Feeder	23 x 15 x 16	Holds 17 pounds of seed, has 2 end hoppers for sunflowers /peanut pieces	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
The Big 30	21 x 19 x 18.5	Holds 30 pounds of seed	Has slide out removable aluminum screen bottom for easy cleaning and drainage.
Combo V Feeder (Post Mount)	13 x 9 x 18	Holds 3 lbs sunflower seeds in center seed diverter and holds 1 pound seed per side	V feeder tubes on sides hold various seeds. Center seed diverter holds sunflower seeds.
Woodpecker Peanut Feeder with Stainless Suets	12 x 7 x 15	Holds 1 pound of peanuts and has two suet holders	Wood bottom does not open.
Single Cake Upside Down Suet Feeder	8 x 9.25 x 4.5	Holds one suet cake	Hangs. Top opens by hinge.
Double Cake Upside Down Suet Feeder	13 x 9.5 x 4.5	Holds two suet cakes	Hangs. Top opens by hinge.
Squirrel Dine-In Feeder	14 x 7.5 x 8	Varies with seed type	Has clear acrylic side for easy viewing. Entrance holes on each end are 3.5 inches.
Squirrel Munch Box	7.25 x 13 x 9.25	Holds 2 pounds of squirrel feed.	Top hinged for easy opening, Clear acrylic plastic front. Wood bottom does not open.
Squirrel Pinwheel	13 x 8.75 x 12	Holds 4 ears of corn	Screws create 4 inch pins to hold corn.
Squirrel Table & Chair	3.25 x 11 x 12	Holds 1 ear of corn.	Galvanized nail creates 4 inch pin to hold corn.
Squirrel Teeter Totter	16 x 7 x 12	Holds 1 ear of corn.	Hinge allows for the teeter totter movement

Additional items	Size	Additional information
Post Mount	8.25 x 5.25 x 4.25 - inches	Kiln dried cedar with stainless steel screws
Post	3.5 x 3.5 x ** - inches	58, or 71 inch kiln dried cedar posts with stainless steel screws
Flower Pot Holder with Roof	14W x 12D x 22H—inches	<i>(flowers and pot not included)</i>
Flower Pot Holder with Legs	12W x 12D x 18H—inches	<i>(flowers and pot not included)</i>
30 Gallon Rain Barrel	Comes with accordion downspout for attachment to gutter or spout	Nylon screen easy to remove and clean as needed.

WAYNE COUNTY
Soil & Water

 CONSERVATION DISTRICT

For each item you purchase your name will be entered into a drawing for one of the following three options of your choice:

- **2 Wayne County Soil & Water Conservation District Annual Meeting tickets (January 30th)**

OR

- **1 30-GALLON rain barrel complete with downspout for attachment (while supplies last)**

OR

- **1 of the 3-gallon trees or shrubs listed in this brochure (based on availability)**

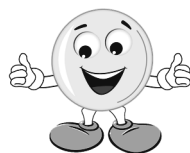

OR

- **A cedar nestbox or feeder:**

Small Sunflower Feeder
Single Cake Upside Down Suet Feeder
Double Cake Upside Down Suet Feeder
Squirrel Dine-In Feeder
Squirrel Munch Box
Squirrel Pinwheel
Squirrel Table & Chair
Squirrel Teeter Totter
#3 Hanging Bird Feeder
#3 Hanging Corner Bird Feeder

1 Chamber Bat House
Standard Eastern Bluebird Nest/Roost Box
Classic Eastern Bluebird Nestbox
Classic Eastern Bluebird Nestbox with vents
Downy Woodpecker Nestbox
Robin/Phoebe Nestbox
Wren/Chickadee Nestbox (mounting)
Hanging Wren Nestbox
Hanging Chickadee/Wren-Beveled Roof
Hanging Wren V Box
Two Wren Nestbox Kits
Flower Pot Holder with Legs

Winner will be drawn on Friday, September 9th at Noon so that winner can be contacted and order placed by deadline.
